DECISION

Lisbon Valley Mining Company LLC :
Attn: Lantz Indergard : Surface Management
755 North Main Street, Suite B :
Moab, Utah 84532 :

PLAN OF OPERATIONS MODIFICATIONS APPROVED – CONDITIONS OF APPROVAL REQUIRED

The modifications to the Plan of Operations for the Lisbon Valley Copper Mine is hereby approved subject to conditions of approval listed below. Lisbon Valley Mining Company LLC (Lisbon Valley Mining) must conduct operations as described in the Plan of Operations and in the modification in accordance with the following Bureau of Land Management (BLM) conditions of approval (COA):

Conditions of Approval:

1. A cultural site monitor is required during the construction of the GTO Haul Road to ensure that cultural resources are avoided.
2. Expansion of waste dump C may proceed up to the fence line to the east. To avoid eligible cultural resource sites, no work may extend to the east of the fence.
3. Expansion of waste dump C may not proceed east of the fence line until the Research Design and Data Recovery Mitigation Plan to mitigate cultural resources has been approved and fully implemented.

The rationale for this decision are based on the need for Lisbon Mining to continue to mine a valuable deposit of copper under the authority of the mining laws of the United States while ensuring that operations are conducted in a manner that will prevent unnecessary or undue degradation as defined at 43 CFR 3089.5.

Financial Guarantee

The BLM reviewed Lisbon Valley Mining's financial guarantee and considered the modifications and interim reclamation, to determine that the required financial guarantee remains unchanged at \$6,030,060.00 for reclamation of the Lisbon Valley Copper Mine. This financial guarantee is already in place with the Utah Division of Oil, Gas and Mining, and it has been accepted and obligated by the Utah BLM State Office.

Approval of a Plan of Operations by the BLM does not constitute a determination regarding the validity or ownership of any unpatented mining claim involved in the mining operation. Lisbon Valley Mining is responsible for obtaining any use rights or local, state, or federal permits, licenses, or reviews that may be required for the operation.

This decision also constitutes concurrence with Lisbon Valley Mining's use and occupancy of public lands as described in the approved Plan of Operation. Lisbon Valley Mining must maintain compliance with the Use and Occupancy regulations at 43 CFR 3715.2, 3715.2-1, and 3715.5 throughout the duration of the approved Plan of Operations. Concurrence by the BLM on Lisbon Valley Mining's proposed use and occupancy is not subject to State Director Review, but may be appealed by adversely affected parties directly to the Interior Board of Land Appeals as outlined in enclosed BLM Form 1842-1.
